- We'll come to you with workflow planning and production problem-solving
- Our website Ink Chooser, Tech Data Sheets and more are there 24/7

### ISO Approved:

Since 2000, Nazdar's Quality Management System has been independently certified and registered as meeting the requirements of the International Quality Standard, ISO 9001. This was, and is, an unmistakable signal to our customers that Nazdar has achieved a standard of quality recognized and respected throughout the world.

The ISO 9001 Standard covers every aspect of our business, from the way we operate and manufacture to customer service standards and product delivery.

### Environmental Health & Safety:

Our Regulatory Compliance Department provides extensive training to industry associations and printers. We formulate our products with environmental concerns in mind, including energy-efficient UV inks that are V-Pyrol® free and solvent based inks that are heavy metal free with lower VOCs and easy reclamation.

***Pre-test all ink recommendations prior to full production***
